## ■ PROFILE OF THE FACULTY

The University of Economics in Bratislava is the most significant and largest educational institution in the field of economics in Slovakia. Currently the University of Economics in Bratislava has 7 faculties; one of them is the Faculty of Business Economics of the University of Economics in Bratislava with seat in Košice (FBE UE).

FBE UE has a long history and experience in preparing graduates in economics and management. Faculty is providing university educated economists in all forms of study, in the daily, external, bachelor, master and doctoral studies. FBE UE's history began in 1952 and since that time the faculty has demonstrated its worth and viability. This is evidenced by the number of graduates, many of whom are recognized economists and managers at home and abroad and engaged in high-level positions in private sector companies, as well as scientific institutions and public organizations. Our continuous improvement is evidenced by several awards related to the quality policy and the maintenance of a qualified corps of teachers and researchers, and not least new premises equipped with modern information and communication technologies.

The Faculty has granted competences to conduct habilitation procedure and procedure for appointment of professors in mentioned fields. In addition to modern equipped premises in the historic centre of Košice, FBE UE allows to study selected study programs at the Teaching Centre in Michalovce. Teaching centre was created in cooperation with the city of Michalovce in 1994 and provides education at the first and second degree of study in the daily and external form.

## ■ WHY STUDY AT FBE?

FBE UE students have during their studies the opportunity to meet with leading economists and managers at lectures and workshops organized by the reputable companies that are also major employers of FBE UE's graduates. An important part of the work of the faculty with talented students is the creation of a special group of talented students "Honoris" for which the faculty ensures the expansion of the tutorial.

The aim of this innovation is to provide more practical knowledge to selected students in collaboration with a reputable multinational company for selected students to be better prepared to labour market conditions.

For students FBE UE offers accommodation in their own dormitory on Bellová Street in the wider centre of Košice with sufficient capacity and at very reasonable prices for accommodation.

FBE UE's students have the opportunity to acquire new knowledge on 3-12 month study stays at foreign universities and internships in foreign companies within ERASMUS+ programme. In the Erasmus+ programme the University of Economics in Bratislava collaborates with 273 foreign partner universities. The purpose of these study stays and internships is that students complete part of their studies at partner universities and gain knowledge and experience from the field they study in their home university, improve their foreign language, develop academic and professional contacts with colleagues abroad.

On the basis of bilateral cooperation with the University of Huddersfield in England FBE UE's students have the opportunity to complete part of the bachelor's degree in Huddersfield and thus obtain a bachelor's degree from a foreign university.

FBE UE's managerial system built on the principles of the CAF 2006 model and STN EN ISO 9001:2009 heads faculty to continuous improvement, as well as to the need of applying acquired knowledge to practice. FBE UE was awarded within the National Quality Award of the Slovak Republic in C3 category- other public sector organizations in 2008 by the "Award for Performance Improvement" and in 2010 was recognised as "Awarded Finalist of the National Quality Award of the Slovak Republic". FBE UE has certified quality management system STN EN ISO 9001:2009. In 2012, the FBE UE as a part of the University of Economics in Bratislava began the process of prestigious international AACSB accreditations.

## ■ STUDENT PARLIAMENT

FBE UE's students' representative is the Student Parliament of Economists of the Faculty of Business Economics in Košice, which addresses the needs and problems of students. Parliament has own representatives in several organs of the faculty and thus contributes to shaping the direction of faculty development and to the improvement of the educational process. Parliament participates in the organization of discussion forums with prominent personalities, organizes social and entertainment events with cultural program for students, organizes sports events, as well as other events that support student life.
